INDEPENDENT AUDITOR'S REPORT

Board of Directors
Horizon Regional Municipal Utility District
El Paso County, Texas

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Horizon Regional Municipal Utility District (the "District"), as of and for the year ended September 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of September 30, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Schedule of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual - General Fund be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Board of Directors
Horizon Regional Municipal Utility District

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information required by the Texas Commission on Environmental Quality as published in the *Water District Financial Management Guide* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The supplementary information, excluding that portion marked "Unaudited" on which we express no opinion or provide an assurance, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**HORIZON REGIONAL MUNICIPAL UTILITY DISTRICT
MANAGEMENT’S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED SEPTEMBER 30, 2023**

Management’s discussion and analysis of Horizon Regional Municipal Utility District’s (the “District”) financial performance provides an overview of the District’s financial activities for the fiscal year ended September 30, 2023. Please read it in conjunction with the District’s financial statements.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The basic financial statements include: (1) combined fund financial statements and government-wide financial statements and (2) notes to the financial statements. The combined fund financial statements and government-wide financial statements combine both: (1) the Statement of Net Position and Governmental Funds Balance Sheet and (2) the Statement of Activities and Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances. This report also includes required and other supplementary information in addition to the basic financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The District’s annual report includes two financial statements combining the government-wide financial statements and the fund financial statements. The government-wide financial statements provide both long-term and short-term information about the District’s overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The Statement of Net Position includes the District’s assets, liabilities, and, if applicable, deferred inflows and outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Evaluation of the overall health of the District would extend to other non-financial factors.

The Statement of Activities reports how the District’s net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid.

FUND FINANCIAL STATEMENTS

The combined statements also include fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District has eight governmental fund types. The General Fund accounts for resources not accounted for in another fund, customer service revenues, costs and general expenditures. The Debt Service Fund accounts for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes. The Capital Projects Fund accounts for financial resources restricted, committed or assigned for acquisition or construction of facilities and related costs. The remaining five funds are nonmajor funds aggregated together into a single column labeled Defined Area Non Major Funds and are restricted to expenditures for specific purposes.

**HORIZON REGIONAL MUNICIPAL UTILITY DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED SEPTEMBER 30, 2023**

FUND FINANCIAL STATEMENTS (Continued)

Governmental funds are reported in each of the financial statements. The focus in the fund financial statements provides a distinctive view of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of the District and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. The adjustments columns, the reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position and the Reconciliation of the Governmental Fund Statement of Revenues, Expenditures and Changes in the Fund Balances to the Statement of Activities explain the differences between the two presentations and assist in understanding the differences between these two perspectives.

NOTES TO THE FINANCIAL STATEMENTS

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements.

OTHER INFORMATION

In addition to the financial statements and accompanying notes, this report also presents certain required supplementary information ("RSI"). The budgetary comparison schedule is included as RSI for the General Fund.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of the District's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$40,269,569 as of September 30, 2023.

A portion of the District's net position reflects its net investment in capital assets (land, buildings and equipment as well as water and wastewater systems less any debt used to acquire those assets that is still outstanding).

The following is a comparative analysis of government-wide changes in net position:

FINANCIAL ANALYSIS OF THE DISTRICT'S GOVERNMENTAL FUNDS

The District's combined fund balances as of September 30, 2023, were \$77,375,893, an increase of \$29,808,453 from the prior year.

The General Fund fund balance increased by \$1,483,466, primarily due to property tax collections and service revenues exceeding operating, capital outlay and debt expenditures.

The Debt Service Fund fund balance increased by \$298,278, primarily due to the timing difference between property tax collections and scheduled debt service payments.

The Capital Projects Fund fund balance increased by \$27,750,801, primarily due to unspent proceeds from the Series 2023 bonds.

The Hunt Properties Defined Area Special Revenue Fund was created current fiscal year and had a fund balance of \$14,300 as of the end of the year.

The Rancho Desierto Bello Defined Area Special Revenue Fund was created during the current fiscal year and had a fund balance of \$82,263 as of the end of the year.

The Ravenna Defined Area Special Revenue Fund was created during the current fiscal year and had a fund balance of \$33,910 as of the end of the year.

The Hunt Communities Defined Area Special Revenue Fund was created during the current fiscal year and a had fund balance of \$144,823 as of the end of the year.

The Summer Sky North Defined Area Special Revenue Fund was created during the current fiscal year and had a fund balance of \$612 as of the end of the year.

GENERAL FUND BUDGETARY HIGHLIGHTS

The Board of Directors did not amend the budget during the fiscal year. Actual revenues were \$1,886,712 more than budgeted revenues. Actual expenditures were \$574,621 more than budgeted expenditures. This resulted in a positive budget variance of \$1,312,091. See the budget to actual comparison for additional analysis.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
SEPTEMBER 30, 2023**

Total Fund Balances - Governmental Funds \$ 77,375,893

Amounts reported for governmental activities in the Statement of Net Position are different because:

Bond insurance premiums paid at closing are amortized over the term of the refunding bonds. 50,222

Capital assets and right-of-use assets used in governmental activities are not current financial resources and, therefore, are not reported as assets in the governmental funds. 103,257,348

The difference between the net carrying amount of the refunded bonds and the requisition price is recorded as a deferred outflow of resources in the governmental activities and systematically charged to interest expense over the remaining life of the old debt or the life of the new debt, whichever is shorter. 1,609,959

Deferred inflows of resources related to property tax revenues and penalty and interest receivables on delinquent taxes for the 2022 and prior tax levies became part of recognized revenues in the governmental activities of the District. 2,052,782

Certain liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. These liabilities at year-end consist of:

Due to Developer	\$ (3,694,922)	
Accrued Interest Payable	(542,572)	
Interest Payable on Compound Interest Bonds	(2,187,490)

Net Change in Fund Balances - Governmental Funds	\$ 29,808,453
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report tax revenues when collected. However, in the government-wide financial statements, revenues are recorded in the accounting period for which the taxes are levied.	49,876
Governmental funds report penalty and interest revenues on delinquent property taxes when collected. However, in the government-wide financial statements, revenues are recorded when penalty and interest are assessed.	19,158
Governmental funds do not account for depreciation. However, in the government-wide financial statements, capital assets are depreciated and depreciation expense is recorded in the Statement of Activities.	(3,155,533)
Governmental funds report capital asset costs as expenditures in the period purchased. However, in the government-wide financial statements, capital assets are increased by new purchases that meet the District's threshold for capitalization, and are owned and maintained by the District. All other capital asset purchases are expensed in the Statement of Activities.	10,347,246
Governmental funds report principal payments on long-term debt as expenditures. However, in the government-wide financial statements, principal payments decrease long-term liabilities and the Statement of Activities is not affected.	3,517,686
Governmental funds report interest payments on long-term debt as expenditures in the year paid. However, in the government-wide financial statements, interest is accrued on the debt through fiscal year-end.	(456,055)
Governmental funds report bond proceeds as other financing sources. Issued bonds increase long-term liabilities in the Statement of Net Position.	<u>(38,710,000)</u>

HORIZON REGIONAL MUNICIPAL UTILITY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2023

NOTE 1. CREATION OF DISTRICT

Horizon Regional Municipal Utility District (the “District”) was originally a conservation and reclamation district created on August 8, 1961 by the 57 Legislature of the State of Texas pursuant to Article XVI, Section 59 of the Texas Constitution. On June 12, 1989, the District was converted to a municipal utility district and currently operates under Chapters 49 and 54 of the Texas Water Code. On September 4, 2003, the Texas Commission on Environmental Quality approved a change in the District’s name from the El Paso County Water Authority to Horizon Regional Municipal Utility District.

The District is empowered to purchase, construct, operate, acquire, own, and maintain all water and wastewater facilities and improvements and improvements to control and divert storm water. The District is additionally empowered to establish, operate and maintain a fire department, independently or with one or more other conservation and reclamation districts.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board (“GASB”). In addition, the accounting records of the District are maintained generally in accordance with the *Water District Financial Management Guide* published by the Commission.

The District is a political subdivision of the State of Texas governed by an elected board. GASB has established the criteria for determining whether an entity is a primary government or a component unit of a primary government. The primary criteria are that it has a separately elected governing body, it is legally separate, and it is fiscally independent of other state and local governments. Under these criteria, the District is considered a primary government and is not a component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District’s financial statement as component units.

Financial Statement Presentation

These financial statements have been prepared in accordance with GASB Codification of Governmental Accounting and Financial Reporting Standards Part II, Financial Reporting (“GASB Codification”).

The GASB Codification sets forth standards for external financial reporting for all state and local government entities, which include a requirement for a Statement of Net Position and a Statement of Activities. It requires the classification of net position into three components: Net Investment in Capital Assets; Restricted; and Unrestricted. These classifications are defined as follows:

HORIZON REGIONAL MUNICIPAL UTILITY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2023

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial Statement Presentation (Continued)

- * Net Investment in Capital Assets – This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.
- * Restricted Net Position – This component of net position consists of external constraints placed on the use of assets imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulation of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- * Unrestricted Net Position – This component of net position consists of assets that do not meet the definition of Restricted or Net Investment in Capital Assets.

When both restricted and unrestricted resources are available for use, generally it is the District's policy to use restricted first.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District as a whole. The District's Statement of Net Position and Statement of Activities are combined with the governmental fund financial statements. The District is viewed as a special-purpose government and has the option of combining these financial statements.

The Statement of Net Position is reported by adjusting the governmental fund types to report on the full accrual basis, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. Any amounts recorded due to and due from other funds are eliminated in the Statement of Net Position.

The Statement of Activities is reported by adjusting the governmental fund types to report only items related to current year revenues and expenditures. Items such as capital outlay are allocated over their estimated useful lives as depreciation expense. Internal activities between governmental funds, if any, are eliminated by adjustment to obtain net total revenues and expenses in the government-wide Statement of Activities.

Fund Financial Statements

As discussed above, the District's fund financial statements are combined with the government-wide financial statements. The fund financial statements include a Governmental Funds Balance Sheet and a Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial Statement Presentation (Continued)

Governmental Funds

The District has three governmental funds considered to be major funds.

General Fund - To account for resources not required to be accounted for in another fund, customer service revenues, costs and general expenditures.

Debt Service Fund - To account for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes.

Capital Projects Fund - To account for financial resources restricted, committed or assigned for acquisition or construction of facilities and related costs.

The District also has five nonmajor funds that are restricted for specific purposes.

Basis of Accounting

The District uses the modified accrual basis of accounting for governmental fund types. The modified accrual basis of accounting recognizes revenues when both “measurable and available.” Measurable means the amount can be determined. Available means collectable within the current period or soon enough thereafter to pay current liabilities. The District considers revenues reported in governmental funds to be available if they are collectable within 60 days after year-end. Also, under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, which are recognized as expenditures when payment is due.

Property taxes considered available by the District and included in revenues include taxes collected during the year and taxes collected after year-end, which were considered available to defray the expenditures of the current year. Deferred inflows of resources related to property tax revenues are those taxes which the District does not reasonably expect to be collected soon enough in the subsequent period to finance current expenditures.

Amounts transferred from one fund to another fund are reported as other financing sources or uses. Loans by one fund to another fund and amounts paid by one fund for another fund are reported as interfund receivables and payables in the Governmental Funds Balance Sheet if there is intent to repay the amount and if the debtor fund has the ability to repay the advance on a timely basis.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets and Right-of-Use Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the government-wide Statement of Net Position. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair market value on the date donated. Repairs and maintenance are recorded as an expenditure in the governmental fund incurred and as an expense in the government-wide Statement of Activities. Capital asset additions, improvements and preservation costs, that extend the life of an asset, are capitalized and depreciated over the estimated useful life of the asset. Engineering fees and certain other costs are capitalized as part of the asset.

Assets are capitalized, including infrastructure assets, if they have an original cost of \$5,000 or more and a useful life of at least two years. Depreciation is calculated on each class of depreciable property using no salvage value and the straight-line method of depreciation. Estimated useful lives are as follows:

	Years
Buildings	20-40
Water System	7-50
Wastewater System	5-50
Machinery and Equipment	5-7
Other	3-40

In accordance with GASB Statement No. 87, the District recorded the equipment as a right-of-use asset (see Note 10). The right-of-use asset is being amortized over the same term as the lease using the straight-line method of amortization.

Budgeting

An annual unappropriated budget is adopted for the General Fund by the District’s Board of Directors. The budget is prepared using the same method of accounting as for financial reporting. The original General Fund budget for the current year was not amended. The Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual – General Fund presents the original and revised budget amounts compared to the actual amounts of revenues and expenditures for the current year.

Pensions

The District has not established a pension plan as the District does not have employees. The Internal Revenue Service determined that fees of office received by Directors are wages subject to federal income tax withholding for payroll tax purposes only.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus

Measurement focus is a term used to describe which transactions are recognized within the various financial statements. In the government-wide Statement of Net Position and Statement of Activities, the governmental activities are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position, financial position, and cash flows. All assets, liabilities, and deferred inflows and outflows of resources associated with the activities are reported. Fund equity is classified as net position.

Governmental fund types are accounted for on a spending or financial flow measurement focus. Accordingly, only current assets and current liabilities are included on the Governmental Funds Balance Sheet, and the reported fund balances provide an indication of available spendable or appropriable resources. Operating statements of governmental fund types report increases and decreases in available spendable resources. Fund balances in governmental funds are classified using the following hierarchy:

Nonspendable: amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact. The District does not have any nonspendable fund balances.

Restricted: amounts that can be spent only for specific purposes because of constitutional provisions, or enabling legislation, or because of constraints that are imposed externally.

Committed: amounts that can be spent only for purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. This action must be made no later than the end of the fiscal year. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. The District does not have any committed fund balances.

Assigned: amounts that do not meet the criteria to be classified as restricted or committed, but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances and does not have any assigned fund balances.

Unassigned: all other spendable amounts in the General Fund.

When expenditures are incurred for which restricted, committed, assigned or unassigned fund balances are available, the District considers amounts to have been spent first out of restricted funds, then committed funds, then assigned funds, and finally unassigned funds.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

The bonds are payable from the proceeds of an ad valorem tax levied upon all property subject to taxation within the District, without limitation as to rate or amount. The Series 2012 Revenue Refunding Bonds are payable from and secured by a lien and pledge of the net revenues to be received from the operation of the District’s waterworks and sewer system.

During the year ended September 30, 2023, the District levied an ad valorem debt service tax at the rate of \$0.30 per \$100 of assessed valuation, which resulted in a tax levy of \$6,093,633 on the adjusted taxable valuation of \$2,027,654,843 for the 2022 tax year. The bond order requires the District to levy and collect an ad valorem debt service tax sufficient to pay interest and principal on bonds when due and the cost of assessing and collecting taxes. See Note 7 for maintenance tax levy.

All property values and exempt status, if any, are determined by the appraisal district. Assessed values are determined as of January 1 of each year, at which time a tax lien attaches to the related property. Taxes are levied around October/November, are due upon receipt and are delinquent the following February 1. Penalty and interest attach thereafter.

Defined Areas

Pursuant to the provisions of Subchapter J of Chapter 54 of the Texas Water Code, as amended, the District is authorized to define areas or designate certain property of the District to pay for improvements, facilities or services that primarily benefit that area. On November 7, 2017, the District created a defined area encompassing 438.032 acres (the Hunt Communities Defined Area). On November 6, 2018, the District created defined areas encompassing 119.42 acres (the Ravena LLC Defined Area) and 266.012 acres (the Rancho Desierto Bello Defined Area) (the “Defined Areas”).

NOTE 4. SIGNIFICANT BOND ORDERS AND LEGAL REQUIREMENTS
(Continued)

The bond orders state that the District is required to provide continuing disclosure of certain general financial information and operating data to the Municipal Securities Rulemaking Board via the Electronic Municipal Market Access (“EMMA”) system. This information is of the general type included in the audited annual financial statements, is to be provided within six months after the end of each fiscal year and shall continue to be provided through the life of the bonds.

The bond orders state that the District should take all necessary steps to comply with the requirement that rebatable arbitrage earnings on the investment of the gross proceeds of the bonds, within the meaning of Section 148(f) of the Internal Revenue Code, be rebated to the federal government. The minimum requirement for determination of the rebatable amount is on each 5th year anniversary of each issue.

NOTE 5. DEPOSITS AND INVESTMENTS

Deposits

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The District’s deposit policy for custodial credit risk requires compliance with the provisions of Texas statutes.

Texas statutes require that any cash balance in any fund shall, to the extent not insured by the Federal Deposit Insurance Corporation or its successor, be continuously secured by a valid pledge to the District of securities eligible under the laws of Texas to secure the funds of the District, having an aggregate market value, including accrued interest, at all times equal to the uninsured cash balance in the fund to which such securities are pledged. At fiscal year-end, the carrying amount of the District’s deposits was \$8,507,246 and the bank balance was \$9,990,026. The District was not subject to custodial credit risk at year-end.

The carrying value of the deposits is included in the Governmental Funds Balance Sheet and the Statement of Net Position at September 30, 2023, as listed below:

NOTE 5. DEPOSITS AND INVESTMENTS (Continued)

Investments

Under Texas law, the District is required to invest its funds under written investment policies that primarily emphasize safety of principal and liquidity and that address investment diversification, yield, maturity, and the quality and capability of investment management, and all District funds must be invested in accordance with the following investment objectives: understanding the suitability of the investment to the District’s financial requirements, first; preservation and safety of principal, second; liquidity, third; marketability of the investments if the need arises to liquidate the investment before maturity, fourth; diversification of the investment portfolio, fifth; and yield, sixth. The District’s investments must be made “with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person’s own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived.” No person may invest District funds without express written authority from the Board of Directors.

Texas statutes include specifications for and limitations applicable to the District and its authority to purchase investments as defined in the Public Funds Investment Act. The District has adopted a written investment policy to establish the guidelines by which it may invest. This policy is reviewed annually. The District’s investment policy may be more restrictive than the Public Funds Investment Act.

The District invests in LOGIC, an external investment pool that is not SEC-registered. The State Comptroller of Public Accounts of the State of Texas has oversight of the pool. FirstSouthwest and JPMorgan Chase manage the daily operations of the pool under a contract with the Comptroller. LOGIC measures all of its portfolio assets at amortized cost. As a result, the District also measures its investments in LOGIC at amortized cost for financial reporting purposes. There are no limitations or restrictions on withdrawals from LOGIC.

As of September 30, 2023, the District had the following investments and maturities:

Fund and Investment Type	Fair Value	Maturities of Less Than 1 Year
<u>GENERAL FUND</u>		
LOGIC	\$ 24,577	\$ 24,577

NOTE 5. DEPOSITS AND INVESTMENTS (Continued)

Investments (Continued)

Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At September 30, 2023, the District's investment in LOGIC was rated AAA and the money market mutual funds was rated AAAM by Standard and Poor's.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District considers the investments in LOGIC and money market mutual funds to have a maturity of less than one year due to the fact the share position can usually be redeemed each day at the discretion of the District, unless there is a significant change in value.

Restrictions

All cash and investments of the Debt Service Fund are restricted for the payment of debt service and the cost of assessing and collecting taxes.

All cash and investments of the Capital Projects Fund are restricted for the purchase of capital assets.

All cash and investments of the Special Revenue Funds for the Defined Areas are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditures for a specific purpose.

NOTE 8. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. The District carries commercial insurance for its director bonds and participates in the Texas Municipal League Intergovernmental Risk Pool (“TML”) to provide property, general liability, automobile liability, cyber liability, boiler and machinery, and errors and omissions. The District, along with other participating entities, contributes annual amounts determined by TML’s management. As claims arise, they are submitted and paid by TML. There have been no significant changes in coverage from the prior year and settlements have not exceeded coverage in the past three years.

NOTE 9. PROFESSIONAL SERVICE CONTRACT

Effective January 9, 2013, the District entered into a professional service contract with Severn Trent Environmental Services, Inc. (“Severn Trent”), now known as Inframark LLC (“Inframark”). The terms of the contract call for Inframark to fully assume the management, operations, maintenance and repair of the District. The initial term was for 5 years.

On February 22, 2018, the District entered into a new contract with Inframark with a commencement date of March 1, 2018. The District will be charged a base monthly fee plus compensation for authorized additional services. Annual adjustments to the base fee will be made according to changes to the Consumer Price Index. The contract shall remain in full force and effect for 5 years from the commencement date unless terminated for cause provided for in the agreement. Thereafter, the contract will automatically renew for successive 1-year periods unless cancelled in writing by either party at least 60 days prior to the expiration of the then current term.

NOTE 10. LEASES

On March 23, 2018, the District entered in a Lease Purchase Agreement with John Deere Financial in the amount of \$33,928 to fund the purchase of a Progator 2030 and HD200 Sprayer. The equipment is recorded as an asset of the District and is being depreciated over the term of the lease. Lease payments and related interest of \$634 are due monthly beginning April 1, 2018 and ending April 1, 2023. The incremental borrowing rate is 4.75%.
