The information provided in this Document is to comply with Section 1251.052, Texas Government Code, which requires a voter information document for each proposition to be submitted to the voters. - (1) Assumes an interest rate of 5.50% on the Proposed Bonds and issuance in accordance with the assumed amortization schedule described below. The estimated interest and amortization schedule are based upon current assumptions and projections of interest rates, property development, assessed valuations and tax collection rates. To the extent that such assumptions and projects are not realized, the actual interest on the bonds may vary substantially from the estimated interest presented herein. The estimated interest provided herein shall not be considered part of the bond propositions to be submitted to the voters and shall not be considered as a limitation on the District's authority to levy, assess and collect an unlimited tax as to rate or amount pursuant to the Texas Constitution and laws.
- (2) Aggregate of all outstanding obligations of the Horizon Regional MUD overlapping debt secured by and payable from ad valorem taxes as of August 19, 2026. There is no outstanding debt for the defined area.

Estimated Annual Increase in Taxes:

The estimated maximum annual increase in the amount of taxes that would be imposed on a residence homestead in the political subdivision with an appraised value of \$100,000 to repay the debt obligations to be authorized under Proposition C, if approved, based upon assumptions made by the governing body of the District, is \$225.00.

Major Assumptions:

The foregoing information is based upon the following assumptions made by the District's Board of Directors: 1) issuance of the proposed bonds with an amortization schedule that will produce relatively consistent combined annual debt service requirements over the life of the proposed bonds; 2) assumed growth in the District's assessed valuation as provided in the engineering report; and 3) an assumed interest rate on the proposed bonds of 5.50%.

The information provided in this Document is to comply with Section 1251.052, Texas Government Code, which requires a voter information document for each proposition to be submitted to the voters.
